NOT THE WHOLE SHOW.

Santa Clara Journal.

The Los Gatos Board of Trade has sent to the Santa Clara Commercial League a resolution calling upon those in charge at the St. Louis Fair to "take down the sign," which is over the Santa Clara County headquarters at St. Louis. The Commercial League was requested to endorse the action of the Los Gatos Board of Trade and then pass the resolutions on to Mountain View, Palo Alto, and other towns in the county.

The Santa Clara Commercial League passed the following:

"Resolved: That we demand the removal of the sign "San Jose" on the county exhibit at St. Louis or the immediate return to the county treasury of the amount contributed to the exhibit fund by the Board of Supervisors."

Commenting upon this resolution the San Jose News endeavors to justify the action and says:

"At a meeting held on Saturday the Santa Clara Commercial League adopted the above resolution referring to the caption which adorns the face of the Santa Clara exhibit at the World's Fair in St. Louis. This caption reads "San Jose and Santa Clara county," and the prefixing of the name of this city has aroused a storm of comment from neighboring cities throughout the county. It was in the sense of the meeting at Santa Clara on Saturday that San Jose is claiming the credit for the World's Fair exhibit and is trying to shut out every other town in the valley and this course is alike selfish and ungrateful.

"The passing of the resolutions on Saturday was the outcome of comment which has been encouraged by some of the county papers. Columns of space have been devoted to the alleged "hoggish" action of San Jose in claiming all the credit when the country at large has donated towards the maintaining of the exhibit. However well founded the criticisms may be it is a fact that the name San Jose rather than Santa Clara County should be given prominence and importance when this section of the State is referred to."

The News then goes on to justify the action by stating that Santa Clara County is not on the railroad map but San Jose is. It further calls attention to the fact that Los Angeles County is always first considered by representing Los Angeles. But the News apparently forgets that Los Angeles is in Los Angeles County, while San Jose is in Santa Clara County, hence the difference in giving our county seat the credit of doing the whole thing. Too long has the custom of calling on the county to boost San Jose alone and allow other localities to remain in obscurity. The JOURNAL believes when the Supervisors appropriate money and every part of the county donates its share to assist in an undertaking such as the St. Louis exhibit, that there should be a broad gauge line of procedure followed and every part of the county should receive its share of the credit, San Jose included. All recognize San Jose as the central figure in Santa Clara County, but she is not the whole show.

The Los Gatos News in answering the statement of the Commissioners that Santa Clara county was not on the map, but San Jose was, says:

"So Santa Clara county is not on the map? According to the San Jose Chamber of Commerce this county produced 185,000,000 pounds of fruit and vegetables in 1902. Now it is not on the map! For years fruit men have been printing on the ends of boxes, and blowing in the bottles the words "Santa Clara County." The fruit on table and the morning kindling reminds of Santa Clara county, but now the word must go abroad that it is not on the map! Ask these wiseacres of the commission if they know how much the names "Royal Baking Powder," "Kodak," "Cottolene" or "Postum" might be worth, and let them try to buy the right to substitute some other name that is "on the map" for one of them. So the name "Santa Clara County" is a valuable asset. The county is entitled to this reputation without an attempt to undermine or switch it to some town which does not produce a pound of fruit. For the county is paying the bills in addition to having contributed the exhibit. * * If you thought you lived in "Santa Clara County" forget it. It is "not on the map."

THE Los Gatos Mail answers the San Jose News with more than a column article. We give a few extracts:

"The San Jose News had a spasm Monday afternoon, and all because Santa Clara county wants to be recognized at the county exhibit at the World's Fair. The Los Gatos Board of Trade is the primary cause of the News' pain. * * But the News up to this point had not suffered its most excruciating pain; that awful feeling came when it declared that Santa Clara county was "NOT ON THE MAP." Now, what would you think of that! Not on the map! Wonder what kind of a map the News uses? The MAIL has in its office four maps, every one printed by a different concern and all railroad maps, and every blessed one of them has the name of Santa Clara county printed in plain letters in the proper place; and not alone Santa Clara county, but the name of every other county in the state; one of these maps is a map of the United States, too, and every county is properly labeled. And, really now, would you believe it? Los Gatos is on every one of those maps; and so is Santa Clara, and Gilroy, and Almaden, and Hillsdale, and some other towns."

Now that the Supervisors have let the franchise for the "short line" through Campbell to Los Gatos, and the surveyors having started in on the work from the San Jose end, it is safe to say that the road will be completed at once—or by the first of January. The route over which he road will run is as follows: Beginning at the general offices at the city hall and Guadalupe street in San Jose the cars will pass over a new route, west on Park avenue to Josefa street, south to San Carlos, west to Bird avenue, south on Bird avenue to Lincoln avenue, south on Lincoln avenue to Willow street, west on Willow street to Meridian road, south to Hamilton avenue, west to Infirmary road, south to Campbell avenue, west along the north side of Campbell avenue to Railway avenue, thence south along the center of Railway avenue to the point where that avenue crosses the railroad south of Mr. Stratton's. At that point the cars run parallel with the Southern Pacific track, but on a private right of way puchased from Messrs. Kennedy and Page to the Almaden branch. We understand that the Interurban will use the railroad track and bridge in crossing the creek, leaving the same at the Los Gatos road, going on to the "Gem City" by the east side. While we are glad to get the road, just why the company should select that way of getting out of town is still a mystery. Campbell's interests were certainly not consulted. The great number of tourists who will take in the "loop" route can get very little idea of our business, residence, school and church interests—they are very nearly all on this side of the railroad. It is too bad the new cars could not have gone through town and on by the schools. However, there is no use crying over spilt milk, but we cannot but think that the company has made a mistake in choosing that route through town, for more reasons than one.

In Washington County some 39 of the 103 rural routes have been abolished because of bad roads, and some country postoffices and star routes are to be restablished. * * The abolition of rural routes in many places is not unexpected. There will be many more such returns to the old system. Our rich limestone land kept in a mortar state by the frequent rains render it impossible to make such roads as rural mail carriers must have without an expenditure of ten thousand dollars a mile; and it will be a long time before such sums will be put on roads where land is rated at forty or sixty dollars an acre. * * As this is written a Santa Clara Valley, Calif., paper, owned by a TIMES man, comes to him saying that the rural mail carriers there have discarded the fine horses and carriages they have been using and are now sailing the matchless roads of that region in elegant automobiles. But there is a family on every ten acres—and that is another story.—F. P. in Oakdale, Pa., Times.

The Free Library and Mr. Wynn.

EDITOR VISITOR:—The Campbell Free Library desires to acknowledge with becoming enthusiasm the receipt of a large consignment of Congressional publications, sent under the frank of Hon. W. J. Wynn, M. It's Just Humming.

The critic who imagines the Goldy Machine Co. will not succeed in establishing works at Sunnyvale should go down and look over the ground and satisfy himself of the mistake he is making. A large force of men, teams are at work on the foundations of the immense building to be erected; offices are going up, material for building coming in daily and every thing about the pretty little town indicates a boom has come to stay.

The factory, it is claimed, will give employment to several hundred people, constantly, which means a population of a thousand or more inhabitants for Sunnyvale in a short time.—Santa Clara Journal.

The readers of the VISITOR will remember that we have given a number of articles on manufacturing in California, and what the Goldy Machine Co. was proposing to do. Members of our Board of Trade went so far as to see if the plant could not be established here, and after considerable figuring with the promoters of the Goldy Machine Co. it was found that the conditions necessary were not to be had at or near Campbell.

A meeting was held at this office in the interest of the Company, to which a number of our business men were present. Mr Wm. Garrett (who has worked most energetically for its success) presented the claims of the company and since then the Goldy Machine Co. has had ardent supporters here, and we believe that Campbell has shown, in a financial way, that it will back up in substantial way, a legitimate enterprise, and while we would like to have seen this great industry come here, yet we recognize the fact that their chosen site an ideal one. But the Goldy Machine Co. has a kindly feeling for those at Campbell who materially aided them in getting started when the San Jose Chamber of Commerce was "knocking" it because it could not dictate its management, location, etc.

Success to the enterprise is our wish, and especially since our fellow townsman, James Relfe, is one of the principal stockholders of the company.

SILVER BELLS

Revolution in Bread-Making

We have found the flour that is going to make a revolution in Bread Making.

WHY?

It is made from Blue Stem Wheat and Hard Wheat from Minnesota, and it is blended in such proportions as to produce flour for bread making that has never before been offered in this community.

Silver Bell Flour, the miller tells us, contains 28 per cent gluten.

Housekeepers coming here from the East ask why they can not obtain flour equal in quality to Pillsbury's Minnesota Flour.

The answer is that most California flour is made from Australian Wheat, while Minnesota's best Patent Flour is made from Hard Wheat.

SILVER BELL FLOUR is put on the market with the assurance that it is not excelled in quality by any flour whether made here or in the East. We claim for Silver Bell Flour that it will make from eight to ten more loaves of bread to the barrel than flour made from Australian Wheat and we are going to offer this carload of Silver Bell Flour at the regular prices for our local flour:

Barrel.....$5.10
100-pounds.....$2.55
50 pounds.....$1.30

It is our expectation that every bread maker in Santa Clara county will not rest satisfied with her bread until she has given the Silver Bell Flour a trial.

Hurlbert; county convention, J. C. Lloyd, A. E. Howe, Charles Sutter, Ed. Gilman. Prohibitionist—County convention, W. H. Blodgett, E. E. Weeks.

School Notes.

The Campbell grammar school students have been favored this year by the County Board of Education. They have been permitted to take their final examinations at home under their own teacher and superintendent. The plan worked very well, and twenty-one graduates from the eighth grade have received the State Diplomas which gives free entrance to any high school in the state.

Any school of the Union High School district can have the same advantages by making the high school principal the superintendent of the district school.

Miss Ethel Catton, of Berkeley, has been chosen as high school teacher in Miss Newton's place, taking the branches of Latin and German. She comes highly recommended, being a graduate of U. C. '01. She was also the captain of the Varsity basket ball team, so our young ladies can see what this means to them in athletics.

The high school will open this year on Tuesday, Sept. 6th.

The high school library has been greatly enriched by the presentation to the school by Col. S. F. Cooper, of a very fine set of Appleton's American Encyclopedia. There are 16 volumes, and are of the best leather binding. This is surely a gift that will be highly prized by the faculty and students.

CONGREGATIONAL CHURCH.

REV. GEO. E. ATKINSON, Pastor.

We are always glad to see strangers at our services. We should be pleased to welcome you and to have you worship with us. Feel free to make this your church home.

You will find our meetings bright, brief and brotherly.

Services every Sunday morning and evening. Sunday School after morning service and Endeavor just preceding the the evening service Our midweek service is Wednesday evening "Come thou with us and we will do thee good."

METHODIST CHURCH.

REV. J. F. JENNESS, Pastor.

The following services will be held next Sunday:

10:15 a. m. Class meeting.
11:00 a. m. Morning worship.
12:15 p. m. Sunday-school
6:30 p. m. Senior and Intermediate Leagues.
7:30 p. m. Evening worship.

A cordial welcome will be extended to all these services.

Next Sunday morning the pastor will deliver the third sermon in the series of Immortality. The special theme this week is, "The Doctrine of Immortality in the Light of Modern Scientific Research."

In the evening Miss Lizzie Hewitt will speak under the auspices of the Woman's Foreign Missionary Society. Miss Hewitt is principal of a very successful school in the city of Montevidio, Republic of Uruguay. The school, though conducted as a Protestant missionary enterprise is patronized by many of the best families of the city because it is known to offer the best facilities for education. During the past year a grandson of the president of the Republic and members of other families in official circles have been on the roll of the school. Those who wish to know from one who is fresh from the field just what the Protestant church is doing in South America, will do well to hear Miss Hewitt.

LIVER TROUBLES

"I find Thedford's Black-Draught a good medicine for liver disease. It cured my son after he had spent $100 with doctors. It is all the medicine I take."—MRS. CALOINE MARTIN, Parkersburg, W. Va.

If your liver does not act regularly go to your druggist and secure a package of Thedford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Thedford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Thedford's Black-Draught should always be kept in the house.
